Get more for your money...

The Life M7 Next Generation makes alkaline water with higher antioxidant potential, and more acid-fighting alkalinity at a water pH that is optimized for daily drinking. What does this mean? Health experts recommend that you drink alkaline water with a pH of 9.5 daily for better health because a pH of 9.5 is the optimum pH for maintaining your body's pH balance. The Life M7 Next Generation was designed to give you the highest antioxidant potential of alkaline water at that level, so it's

The New 2014 *Next Generation* Water Ionizer

Learn more about our technologies: [NEW! Laser Energy Technology](#), [Mesh Upgrade](#), [Energy Frequency Technology](#), [UV Upgrade](#).

LIFE Ionizer's M7 - *Next Generation* - The Most Powerful 7 Plate Ionizer in the World

- Parts GUARANTEED for life with 10 years on labor
- Comes with FREE water report analysis
- Multi stage filter system with FREE pre-filter system
- Easily converts to undercounter use with optional stainless steel faucet kit
- Sleek new design complements the look of your kitchen

LIFE *Next Generation* M Series: **Max** SMPS Power System™, **Max** Plates™ - **The M = Maximum** - More of everything you want in a water ionizer.

Introducing the ultimate 7 plate water ionizer, the LIFE Ionizers *Next Generation* M7. The ionizer that outperforms our competitor's top-of-the-line models costing much more! The *Next Generation* LIFE Ionizers M-Series is here:

Power. The LIFE M7 features our new **Max Yield™ Power** system. **Max Yield™ Power** means::

- **Stronger pH water** - adjusts up to -11 pH for powerful acid-neutralizing alkalinity
- **Adjusts up to -700 ORP** for alkaline water with the higher antioxidant potential

- **Fully adjustable** - Get the pH you need and the highest antioxidant potential
- **Max Yield Power™** to last - Guaranteed to outlast the competition

Purity Extraordinary alkaline water starts with powerful filtration that eliminates the toxins that poison your body. LIFE Ionizers has the ultimate filtration system that is customized to address the toxins in your water, Here's how we do it:

- **Analyze** your local water quality report
- **Discover** the toxins that are in your water
- **Target** those toxins with a custom-configured pre-filter
- **Protect** you from chlorination with laboratory-grade Vitamin C Ceramic Block® technology

Technology - LIFE Ionizers optional technologies that can make your water more healthy, more pure, and more powerful:

- **UV Light** - Guard against infection from bacteria, viruses, and cysts
- **Energy Frequency Technology** - Energize your water at the quantum level
- **MESH Plates** - 10 - 15% stronger ionized water
- **Laser Energy Technology** - neutralizes negative frequencies in water and adds positive healing frequencies

Exclusive LIFE Bonus feature The LIFE M7 converts to undercounter use with our optional stainless steel faucet kit.

Style The M7's sleek new design will complement the look of any kitchen. You will love the large, easy to read display, and the convenient top-mounted controls!

The M7's plates have a large surface area that optimizes the water for your health and energy. This means you get stronger alkaline water than you can get from any competing 7 plate models costing (in some cases) thousands more!

LIFE's Next Generation M7 Crushes the Competition

The New 2014 LIFE **Next Generation** M7 is the mid-grade ionizer that gives top-of-the-line performance, none of our competitors even comes close! Why wait for an underpowered ionizer that takes forever to fill your glass? Forget about systems like the Kangen Water® machine that need chemical additives to reach higher pH levels. The **Next Generation** M7 has the power you need to deliver the alkaline water at the pH levels you want faster than you ever imagined possible.
