RE: Conformance of 2020C and 2050C to EN14743:2005

NSF is pleased to inform you that Kinetico's 2020C and 2050C cation exchange water softeners have been evaluated by NSF to the requirements of EN14743:2005, and have found to be in conformance with all requirements.

Per EN14743:2005, material safety evaluations are not under the scope of this evaluation and must be evaluated based on the applicable national regulations.

The basis for NSF's evaluation includes the following:

- NSF Test Report J-00031100 dated February 27, 2007, Test Compliance with EN14743, Model 2020C.
- NSF Test Report J-00031102 dated February 27, 2007, Test Compliance with EN14743, Model 2050C.
- Kinetico International Addendum Owner's Manual Insert, dated June 21, 2007.

It is NSF's pleasure to serve Kinetico's needs by providing testing and evaluation to EN14743:2005. Please contact me if you have any questions, or if I may be of further service.

Sincerely,

Rick Andrew
